# OUR SERVICES

## CAMPUS AFFILIATE

Multimatics Campus Affiliate specializing in the delivery of IT and Management training and certification programs to campuses to improve the quality of academics and students. Currently we have established partnership with over 100 campuses all over Indonesia, as well as becoming Red Hat Academic Partner. We offer wide range of programs to close the gap in industry demands.

## CONSULTANCY

Multimatics Consultancy is the most thriving professional services specializing in IT Management, namely the implementation of ISO 27001, ISO 20000, IT Governance and IT Service Management. It also covers other services such as IT Audit, IT Risk Assessment, as well as Cyber Security and Data Management. Our consultancy services will help you achieve more of your business goals by providing practical and comprehensive advisory and action plans.

## ACADEMY

Multimatics Academy specializing in the delivery of the most-sought IT training and certification programs to be ready in facing Industry 4.0, Emerging Technologies and Digital Transformation. Our wide-range portfolio of programs ensure you to always be relevant with current industry demands. We are the authorized partner of several established Principals such as ISACA, PMP, CompTIA, and more. We are also partnered with testing centers such as Pearson Vue, PSI, Kryterion and Certiport to validate our hassle-free learning experience.

**08 Interactive Online Training**  
We offer fun and interactive online training that using several interactive methodologies such as live online class, video learning, interactive Q & A, live polling, game-based learning, online assessment, and project assignment.

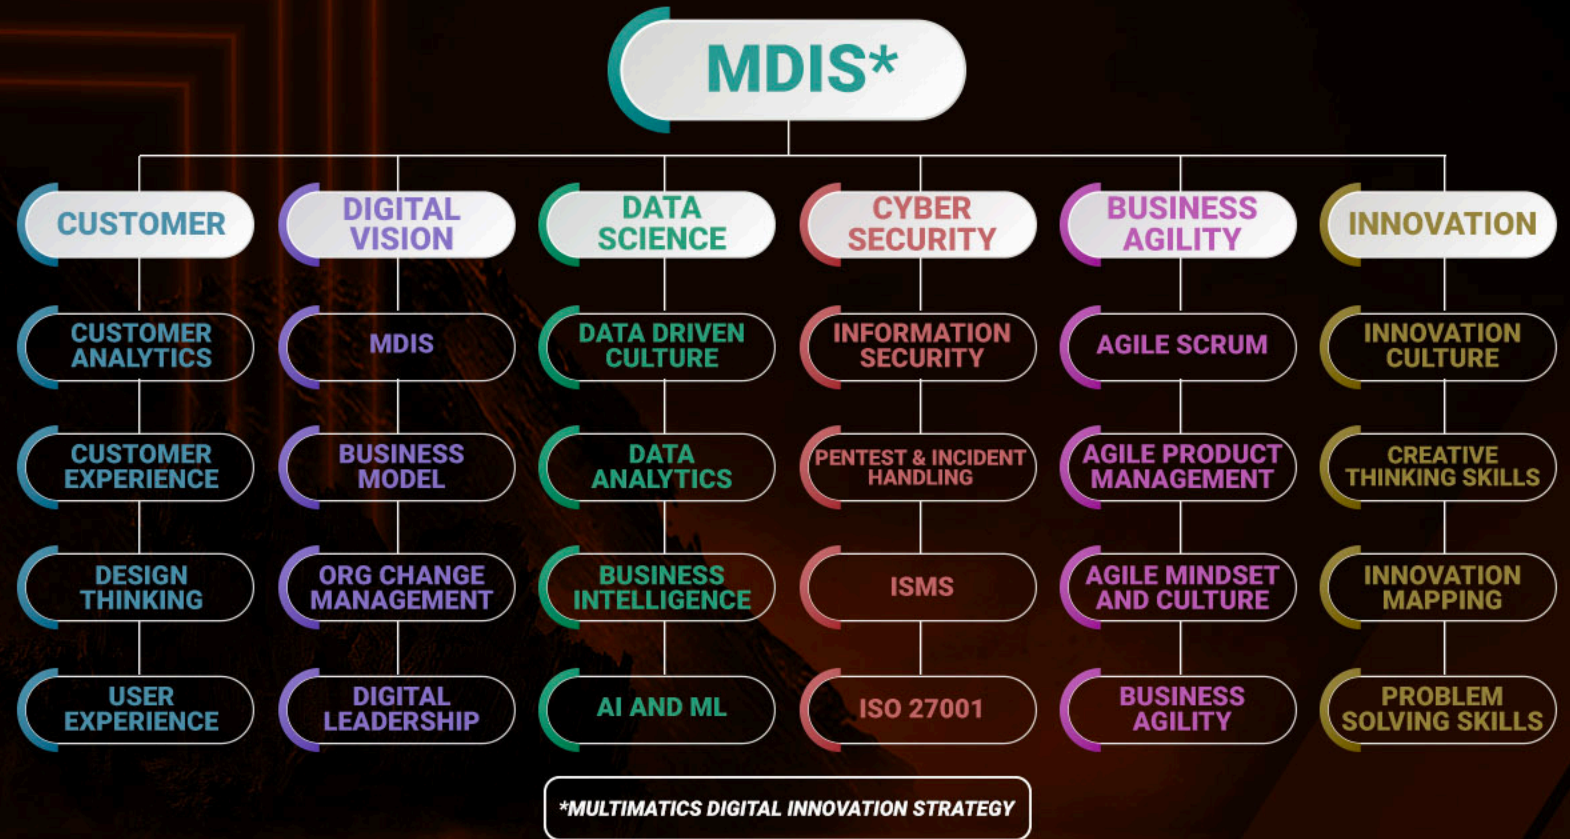

# MULTIMATICS DIGITAL INNOVATION STRATEGY FRAMEWORK PROGRAM

Digital transformation is often painful, and shifting to digital also becomes a daunting task. Many businesses failed to transform their business because they did not understand what Digital Transformation entails.

Multimatics understands the pain it felt in undertaking their digital transformation journey. We also understand that digital transformation is more than just technology.

Hence, we create a MDIS (Multimatics Digital Innovation Strategy) Framework to guide businesses in transforming into digital enterprises. We believe that there are six domains that need to be prepared and nurtured so that digital transformation initiatives can be successfully implemented.

Multimatics is at the forefront of industry's digital journey with years of experience. By implementing the MDIS framework within your organization, we'll help you to get excellent performance, valuable business insights, and faster end-to-end outcomes. Supported by international-recognized frameworks and best practices, and guided with professional and certified trainers and consultants, we help you to Turn Knowledge into Performance.
